

Zurich Master Superannuation Fund

Annual Fund Report for the year ending 30 June 2014

Important notes

Date of preparation: 30 September 2014

The trustee of the Zurich Master Superannuation Fund ('Fund') is Zurich Australian Superannuation Pty Limited ('Trustee'). Unless otherwise indicated, 'us', 'our' and 'we' generally means the Trustee. The Fund is administered by Zurich Australia Limited ('Zurich') (ABN 92 000 010 195, AFSL 232510).

The assets of the Fund are invested via life insurance policies issued by Zurich. Policy documents have been issued by Zurich to the Trustee setting out the terms on which the Fund's assets are invested and terms on which insurance benefits are provided in respect of members. Through these life policies, each of the investment options are invested in underlying unit trusts managed by Zurich Investment Management Limited ('ZIM') ABN 56 063 278 400 AFSL 232511 or other selected managers.

The information in this report is subject to change and must not be considered as a substitute for the Trust Deed or policy documents, which govern your membership of the Fund. The Trust Deed is consistent with superannuation law and sets out the rights and obligations of the Trustee and the members of the Fund and is available free of charge for members to read. If you wish to read the Trust Deed or policy documents or require further information, access is available on request by contacting us. Our contact details are outlined on this page. The Trustee is a Registrable Superannuation Entity (RSE) (Licence number L0003216) for the purposes of superannuation legislation and has trustee indemnity insurance in place.

This report should be read in conjunction with your annual statement. Annual statements are generally received shortly after each anniversary of your plan. For members of the Zurich Account-Based Pension and the Zurich Allocated Pension, the annual statement is produced effective 30 June each year.

Please note that the information contained in this document is general information only. It does not take into account your personal investment objectives, financial situation or particular needs. You should consider these factors and the appropriateness of this information having regard to your objectives, financial situation and needs. We recommend you seek professional advice before making any decision affecting any aspect of your membership in the Fund.

This document contains information about changes to the law governing superannuation. This information, although derived from sources believed to be accurate as at the date of preparing this report, may change. It should not be considered to be a comprehensive statement on any matter and should not be relied upon as such.

Zurich and its related entities receive remuneration such as fees, charges or premiums for the financial products which they issue. Details of these payments, including how and when they are payable, can be found in the relevant disclosure documents for each financial product.

Contact details

The team at the Zurich Client Service Centre understands the Fund, and are well equipped to answer questions about the Fund and provide extra information, although they are not able to give financial advice.

To contact Zurich's Client Service centre simply:

- call us on 131 551,
- email us on client.service@zurich.com.au
- fax us on 61 2 9995 3797
- or write to us at: The Manager
Zurich Client Service Centre
Locked Bag 994
North Sydney NSW 2059

For financial advice, please contact your financial adviser.

Directors of Zurich Australian Superannuation Pty Limited (effective 30 June 2014)

- Winsome Hall – Chairman
- Catherine Osborne – Independent Director
- Brett Bennett – Non-executive Director
- Michelle Auer – Non-executive Director

A message from the Trustee

Dear member,

The Trustee of the Zurich Master Superannuation Fund is pleased to present this Annual Fund Report for the year to 30 June 2014.

About this Report

This Report has information about recent developments affecting the Fund and the superannuation industry. It also provides you with information on investment options.

Understanding your superannuation plan, your choices and the investment performance is extremely important so we ask that you read this Report carefully.

Need help?

If you have any questions regarding your superannuation or this Report, please do not hesitate to contact your adviser or the Zurich Client Service Centre on **131 551**.

Thank you for your continued support.

Yours sincerely

Winsome Hall

Chair,
Zurich Australian Superannuation Pty Limited

About the Zurich Financial Services Group

Zurich Financial Services Australia Limited and its subsidiaries ('Zurich Australia'), part of the Swiss-based worldwide Zurich Insurance Group, is the only global financial services group operating in Australia under a single brand in the core business lines of general insurance, life risk, investment and superannuation solutions. Zurich Australia operates under the global Zurich brand.

Zurich Australia's business is divided into two main segments. They offer general insurance solutions to customers such as small businesses, mid-sized and large companies and multinational corporations, primarily through insurance brokers. They also offer life and investment solutions to corporate and personal customers, primarily through financial advisers. Zurich's presence in their core lines in Australia has been sustained, no matter what economic conditions prevail. Zurich Australia's offices are Australia-wide with their headquarters in North Sydney. The Trustee is part of the Zurich Australia group.

Zurich Insurance Group – a global view

The Zurich Insurance Group is one of the world's largest insurance based financial services insurance groups, and one of the few to operate on a truly global basis.

It has a global network of subsidiaries and offices in North America and Europe, Asia-Pacific, the Middle East, Latin America and other markets. Founded in 1872, the company's headquarters are in Zurich, Switzerland.

Zurich employs over 55,000 people helping customers manage risk in more than 170 countries. It is the second largest insurer of global corporate business.

The Group, headed by Chief Executive Officer Martin Senn, is listed on the Swiss stock exchange. For more information, visit www.zurich.com.

Australian origins

The Australian lineage of Zurich Insurance Group dates back to 1920, when the Commonwealth General Assurance Corporation Ltd (CGA) was incorporated in New South Wales. In 1961, CGA became part of the Zurich Insurance Group.

Zurich's wealth creation solutions

For over 30 years, Zurich Australia's investments business, 'Zurich Investments', has been managing money on behalf of Australian investors across a range of diversified and sector funds. Zurich Investments has a unique range of funds that provide advisers and clients with access to specialist strategic investment managers. By using global expertise and scale, Zurich Investments forms strategic partnerships with a select group of investment managers, who are experts in their particular asset class. Strategic investment partners are selected based on their compatibility with the Zurich Investments philosophy, the strength of their processes and their performance track record. The current strategic investment partners for each option can be found in the "**Zurich Investments – Global Expertise, Specialist Application, Unique products**" flyer available on the Zurich website at www.zurich.com.au.

Zurich's wealth protection solutions

Zurich Australia's Life Risk business provides choice and flexibility through a suite of award-winning business and personal life risk solutions. Our Life Risk personal risk solutions include life, trauma and disability insurance. Zurich is able to draw on its global strength to provide exceptional service and outstanding value, and provide innovative, customer-friendly products.

Zurich Australia's Life Risk business continues to receive accolades for delivering market leading service, innovative products and outstanding value. In late 2012, our strength in business insurance was again recognised by Canstar Cannex, with Zurich Australia winning Outstanding Value Awards in the Business Life Insurance, Business Partner Insurance and Key Person Insurance categories. As one of the longest standing independent players in the Australian life market, Zurich Australia remains committed to working in partnership with independent financial advisers.

These award winning insurance products are available for members of the Zurich Master Superannuation Fund. For more information we recommend you discuss your individual requirements with your financial adviser.

Superannuation news

Federal Budget 2014-15

On 13 May 2014 the Treasurer, Mr Joe Hockey, delivered his first Federal Budget. Following are announcements that may impact on your investment in the Fund. We recommend you speak to your financial adviser about how these changes affect your investment.

Please note that unless otherwise stated, legislation may not yet have been passed. We strongly recommend that members check with their financial adviser before making any changes to their investment.

Superannuation Excess Contributions Tax

Individuals will be given the option of withdrawing superannuation contributions in excess of the non-concessional contributions cap made from **1 July 2013** and any associated earnings, with these earnings to be taxed at the individual's marginal tax rate.

Final details of the policy will be settled following consultation with key stakeholders in the superannuation industry.

This measure delivers on the Government's election commitment to develop an appropriate process that addresses all inadvertent breaches of the contribution caps where the error would result in a disproportionate penalty.

Changes to the Superannuation Guarantee rate

The Government proposed a change to the schedule for increasing the superannuation guarantee rate to 12 per cent, as part of the Minerals Resource Rent Tax Repeal.

Please refer to the rates on page 8.

Additional Budget announcements

Zurich's overview of the 2014-15 Federal Budget announcements that impact superannuation, investments and taxation can be located on the Superannuation and Retirement page at www.zurich.com.au.

Other announcements/changes to superannuation

Change to Centrelink Deeming rules

From 1 January 2015, the normal deeming rules will be extended to superannuation account-based income streams. This will mean all financial assets are assessed under the same rules.

This change applies to pensions established on or after 1 January 2015. Account-based income streams held by pensioners prior to 1 January 2015 will continue to be assessed under the existing rules, so existing pensioners will not be affected unless they choose to change superannuation pension products, or obtain a new product from 1 January 2015.

If you have any questions regarding the new deeming rules, we recommend you speak with your financial adviser.

Changes to the Low Income Superannuation Contribution (LISC)

The Government proposed changes to the LISC. Please refer to the information on the LISC on page 8.

Update: Product and Investment

In this section, **ZSP** stands for Zurich Superannuation Plan, **ZRP** stands for Zurich Retirement Plan, **ZABP** stands for Zurich Account-Based Pension, **ZAP** stands for Zurich Allocated Pension and **ZTAP** stands for Zurich Term Allocated Pension.

Please note that the information in the following section applies to all investment plans (unless as indicated).

Member protection repealed – impact for members with small account balances

(all investment plans except ZABP, ZAP and ZTAP)

The Government has passed legislation repealing Member Protection Standards with effect from 1 July 2013.

Prior to 1 July 2013 if at your policy anniversary the amount in your account was less than \$1,000 and superannuation guarantee or award contributions had been made into the account by your employer, superannuation law limited the amount of charges that could be deducted from your account. Generally you could not be charged administration fees that exceeded your investment returns during that period.

Following the removal of the Member Protection Standards, Zurich made a decision to continue providing member protection until 30 June 2014.

Important! If you have a small balance (ie less than \$1,000), you need to be aware your account will be charged the standard rate of administration fees from 1 July 2014. Unless you make additional investments to your plan, your account may be eroded by the application of full administration fees.

Intra-fund consolidation

(all investment plans except ZABP, ZAP and ZTAP)

Intra-fund consolidation involves the merging of multiple superannuation accounts for the same member within the Fund, if this is in the member's best interest. When determining whether it is in the member's best interest, we must consider the possible savings in fees, charges and insurance premiums, as well as any other relevant factors.

We have completed the first round of intra-fund consolidation in June 2014 and you would have been notified if we identified any accounts that were consolidated. Future rounds of intra-fund consolidation will be completed in the first quarter of each calendar year.

Increase to the minimum Monthly Portfolio Management Charge

(ZSP, ZABP, ZAP and ZTAP clients only)

Effective 1 April 2014 the minimum monthly Portfolio Management Charge for the Zurich Superannuation Plan (ZSP), the Zurich Account-Based Pension (ZABP), the Zurich Allocated Pension (ZAP) and the Zurich Term Allocated Pension (ZTAP) increased from \$20.30 to \$20.85.

As disclosed in the PDS, the increase has been calculated on the Consumer Price Index ('CPI') increase measured over the 12 months ending 31 December of the previous year (ie. 2013). The CPI is the "Weighted Average of Eight Capital Cities Index" published by the Australian Bureau of Statistics.

Cost of Capital Guaranteed – reduced

(ZRP clients only)

Zurich guarantees the Capital Guaranteed investment option will never declare a negative rate of investment return. Currently there is a maximum deduction of 0.85% from the declared rate of the option for the cost of providing this guarantee. Zurich has recently changed how it invests the assets that back the capital guaranteed option to a more stable pool of assets. In light of that change, Zurich has been able to reduce this charge from a maximum of 0.85% to a maximum of 0.70%. This change applies for annual investment returns credited to policies from 1 January 2015 and will be reflected in the returns declared at 31 December 2014.

Addition of Zurich Global Equity Income and Zurich Global Growth Share options

(ZSP, ZABP and ZAP clients only)

Effective 14 March 2014 two new investment options, namely the Zurich Global Equity Income and the Zurich Global Growth Share options, were added to the investment menu for new and existing members of the Zurich Superannuation Plan and Zurich Account-Based Pension and to existing members of the Zurich Allocated Pension.

Full details of these options can be located in the Investment option summaries section beginning on page 24 of this Annual Fund Report.

You should speak with your financial adviser to determine if these new options fit within your risk/return profile.

Closure of investment option

(ZSP, ZABP and ZAP clients only)

Effective 26 June 2014 the BlackRock Balanced investment option was closed. Members in this option were asked to nominate an alternative option(s) for their investments or their investment was/would be moved into the relevant default option.

The decision to close this option was based on the relatively small level of funds under management, which made the option costly to administer. Over the long-term, this could have had an adverse effect on member's investment returns and fees charged.

If you have any questions regarding the closure of this option, please contact either your financial adviser or Zurich's Client Service Centre on 131 551.

Change to asset allocation benchmarks and ranges

The asset allocation benchmarks and ranges for the Zurich Balanced, Managed Growth and Priority Growth options have been changed in line with the following table:

Asset class	Balanced		Managed Growth		Priority Growth	
	Benchmark %	Ranges %	Benchmark %	Ranges %	Benchmark %	Ranges %
Australian Share	24	8 – 38	32	17 – 41	37	23 – 50
International Shares	16	5 – 30	26	10 – 36	37	23 – 50
Listed Property Securities:						
– Australian	2	0 – 9 [#]	2	0 – 12 [#]	2	2 – 10 [#]
– Global	2	0 – 9 [#]	3	0 – 12 [#]	3	2 – 10 [#]
Alternative investments	8	6 – 10	9	7 – 11	9	7 – 11
<i>Total growth assets</i>	52	19 – 65	72	45 – 85	88	57 – 100
Aust & Int Fixed Interest [^]	38	30 – 58	24	15 – 40	10	0 – 30
Cash	10	5 – 25	4	0 – 15	2	0 – 15
<i>Total defensive assets</i>	48	35 – 81	28	15 – 55	12	0 – 43

[#] The range shown for Australian and Global Property Securities is a combined range.

[^] This asset class includes both investment grade and non investment grade international fixed interest.

Change of Strategic Investment Partners

Effective 24 June 2014, Wells Capital Management Inc. was appointed investment manager for the Emerging Markets equity asset allocation within the Diversified options, including the Capital Stable, Balanced, Managed Growth and Priority Growth options.

The details of the strategic investment partners for the investment options are available from the website www.zurich.com.au/strategicpartners.

Update: Superannuation rates and thresholds

Following is a snapshot of key rates and thresholds that apply to superannuation. For historical rates/thresholds, please refer to the "Super rates and thresholds" section on the Superannuation and Retirement page at www.zurich.com.au.

Concessional contributions cap

Concessional contributions include employer contributions (eg. Superannuation Guarantee and contributions made under a salary sacrifice arrangement) and personal contributions claimed as a tax deduction by a self-employed or other eligible person.

Income year	Amount of cap Persons aged less than 50	Amount of cap Persons aged 50 to 59	Amount of cap Persons aged 60 or more
2014-15	\$30,000	\$35,000	\$35,000
2013-14	\$25,000	\$25,000	\$35,000

Note: The concessional contributions cap is generally indexed in line with Australian Weekly Ordinary Times Earnings (AWOTE), in increments of \$5000.

If you have more than one fund, all concessional contributions made to all your funds are added together and count towards the cap.

Non-concessional contributions cap

Non-concessional contributions include personal after-tax contributions for which you do not claim an income tax deduction.

Income year	Amount of cap
2014-15	\$180,000
2013-14	\$150,000

Note: People under 65 years old may be able to make non-concessional contributions of up to three times their non-concessional contributions cap over a three-year period. This is known as the 'bring-forward' option.

The bring-forward cap is three times the non-concessional contributions cap of the first year. If you brought forward your contributions in 2014-15, it would be $3 \times \$180,000 = \$540,000$.

The non-concessional contributions cap is six times the amount of the general concessional contributions cap, which is indexed each year. In 2014-15 the non-concessional contributions cap is \$180,000. If you have more than one fund, all non-concessional contributions made to all your funds are added together and count towards the cap.

Contributions that exceed the cap are taxed at the highest marginal tax rate plus Medicare Levy.

Lump sum low rate cap amount

For members aged between 55 and 60, the taxed element of the taxable component of a superannuation lump sum up to the Low rate cap is taxed at a lower (or nil) rate of tax. Amounts exceeding the low rate cap are taxed at 15% plus the Medicare levy.

The low rate cap only applies once a member has reached their preservation age currently between the age 55 and age 60 depending upon a person's date of birth.

Income year	Amount of cap
2014-15	\$185,000
2013-14	\$180,000

CGT cap amount

Under certain circumstances, the proceeds of the sale of small business and assets contributed to superannuation might not count towards the concessional and non-concessional contribution caps. Provided certain conditions are satisfied, these additional amounts may count towards a separate cap (CGT cap) instead. The CGT cap amount is a lifetime limit. The CGT cap amount applies to all qualifying CGT contributions.

Income year	Amount of cap
2014-15	\$1.355 million
2013-14	\$1.315 million

Government Co-contribution Income Thresholds

The Super Co-contribution is a government contribution to assist eligible individuals to save for their retirement. If you are eligible and make personal super contributions, the government will match your contribution with a Super Co-contribution up to certain limits. To receive a Co-contribution you must be earning less than the Higher Income Threshold. To receive the maximum Co-contribution you must be earning no more than the Lower Income Threshold. If you earn in between the two thresholds, you may be able to receive a limited Co-contribution.

There are other criteria you must meet to be eligible for the Super Co-contribution – for further information please visit the ATO website: www.ato.gov.au.

Co-contribution Income Thresholds

	Lower income threshold	Higher income threshold	What will you receive for every \$1 of eligible personal super contributions?	What is your maximum entitlement?
From 1 July 2014 until 30 June 2015	\$34,488	\$49,488	\$0.50, up to your maximum entitlement	Your maximum entitlement is \$500. However, you must reduce this by 3.333 cents for every dollar your total income, less any allowable business deductions, is over \$34,488 up to \$49,488.
From 1 July 2013 until 30 June 2014	\$33,516	\$48,516	\$0.50, up to your maximum entitlement	Your maximum entitlement is \$500. However, you must reduce this by 3.333 cents for every dollar your total income, less any allowable business deductions, is over \$33,516 up to \$48,516.

Low Income Superannuation Contribution

Since 1 July 2012, the Government provided a super contribution of up to \$500 annually for anyone earning up to \$37,000 p.a. The low income superannuation contribution (LISC) effectively refunded the 15% tax they have paid on their SG contributions.

Those eligible for the LISC won't need to lodge a tax return to receive their contribution and the first payments will be made in the 2013-14 income year. The Australian Tax Office (ATO) will use available information to determine an individual's eligibility.

Individuals will need to meet a test where at least 10% of their income must be from employment or business sources and they are a resident of Australia or New Zealand.

Note: the government has introduced legislation to repeal the Low Income Superannuation Contribution as part of the Minerals Resource Rent Tax, with the last contribution to be made for the financial year 2016/17.

Superannuation guarantee contributions

Since 1 July 2003, employers have been required to contribute 9% of an employee's earnings to a superannuation fund under the superannuation guarantee (SG) law. Recent changes to legislation saw the superannuation guarantee increase from 1 July 2013. As at the date of preparation of this report, with the repeal of the Minerals Resource Rent Tax, the proposed schedule for the increase is as follows:

Period	Superannuation guarantee rate
1 July 2003 – 30 June 2013	9.0%
1 July 2013 – 30 June 2014	9.25%
1 July 2014 – 30 June 2020	9.5%
1 July 2020 – 30 June 2021	10.0%
1 July 2021 – 30 June 2022	10.5%
1 July 2022 – 30 June 2023	11.0%
1 July 2023 – 30 June 2024	11.5%
1 July 2024 – 30 June 2025 onwards	12.0%

If an employee earns more than \$49,430 in a quarter of the 2014-15 financial year, the employer is not obligated to pay superannuation guarantee contributions on the excess above \$49,430 in that quarter.

Additional information

Is your super on track?

Issue	Did you know...	Think about this...	What should you do?
Your goals for retirement	The current Age Pension only provides approximately 25% of an average worker's salary#. This could mean a substantial change in your lifestyle when you retire, if this is your only source of income.	<ol style="list-style-type: none"> 1. Do you need the same level of income when you retire, or will you need less/more? 2. When would you like to retire? 3. How much have you already saved? 	Make an appointment to see your financial adviser to review your retirement plans and to ensure you are still on track to reach your goal.
How is your super invested?	Because super is a long term investment, where it is invested is very important. If your super is not invested with your timeframe in mind, you might not achieve your retirement goals.	<p>Do you know how your super is invested?</p> <p>Is it going to grow sufficiently, or do you need to consider investing in shares and listed property?</p>	<p>Discuss any concerns that you have with your financial adviser.</p> <p>Consider rebalancing your portfolio, depending on how long you have until you retire.</p>

measured by Average Weekly Ordinary Time Earnings

View your investment details online via My Zurich

Most members can access their Zurich investment details 24 hours a day via *My Zurich* on the Zurich website*.

My Zurich will enable you to access your personal information – including balances, transactions and statements – online. You can also nominate to receive information relating to your account, such as this Annual Fund Report, online rather than as a printed paper copy via your communication preferences in *My Zurich*.

To register now, go to www.zurich.com.au and click on 'My Zurich' followed by the 'Register here' link. You will need to provide your Zurich Investments Number which can be found on your statement. If you are unsure what your Investments Number is, please call the Zurich Client Service Centre on 131 551.

* Members with a Capital Guaranteed investment option plan, or with an older style product may not have access to *My Zurich*. To check if you have access please call the Zurich Client Service Centre on 131 551.

Accessing your statements online

Choosing to receive statements for eligible accounts online instead of by paper is a great way to reduce paper clutter and ease the strain on the environment.

If you've already registered to *My Zurich* you can view past investment statements online now and set your communication preferences so that you will be notified via email as soon as future statements are available for you to view.

Benefits of online statements

There are a number of benefits in accessing your statements online when compared to paper statements:

- By choosing to receive online statements, you will be able to view your statement sooner than via "snail mail".
- Unauthorised interception of paper statements is prevented, giving you peace of mind that details of your Zurich plan remains protected
- You will be able to view your Zurich Investment statements when and where it is convenient for you
- All your Zurich Investment statements will be stored in one location, making it easier for you to locate past statements.
- And of course, you can still print your statement for those times when you may need to.

Need help?

If you need any assistance in setting up your *My Zurich* access, please do not hesitate to contact Zurich's Client Service Centre on 131 551.

Rollovers into Zurich

Please note that, if you are rolling amounts into the Zurich Master Superannuation Fund, you may ask the fund you are transferring amounts from, for any additional information that you reasonably require for the purpose of understanding the effect of the rollover on your benefit entitlement in that fund. The information can relate to fees and charges, the effect on your insurance cover (if any) and any other relevant matter. If you require such information, please contact your fund trustee before completing the rollover authority.

The importance of Tax File Numbers

Use of your tax file number for super purposes

Since 1 July 2011, super fund and retirement savings account providers have been able to use your tax file number (TFN) as a primary locator to link contributions and rollovers with your accounts and to locate your accounts.

From 1 January 2012, regulations came into effect that require super funds and retirement savings account providers to obtain your consent before using your TFN to seek information from certain ATO services (for example SuperMatch), or facilitating the consolidation of accounts by contacting another super fund or retirement savings account provider. These measures will make it easier for you to be reunited with your super, if it is sitting in a lost account or multiple accounts across various funds.

Superannuation law requires you to provide your Tax File Number (TFN) to the Trustee in order to make personal contributions (including contributions from your after tax income and personal deductible contributions) and/or to avoid paying excessive tax on employer contributions (including Superannuation Guarantee and salary sacrifice contributions from your before tax income).

If the Trustee has not been informed of your TFN:

- **Personal contributions**, including any contributions you make for yourself or that your spouse makes to your superannuation account on your behalf, cannot be accepted by the Fund.
- **Employer contributions**, including any salary sacrifice contributions. If a member has not quoted their TFN by the end of the financial year and their account was opened on or after 1 July 2007, all assessable contributions made during the income year will be taxed an extra 34.0%.

The extra tax on these assessable contributions is in addition to the standard 15% rate of tax payable by superannuation funds on their taxable income.

Important notes:

1. Contributions received from **self-employed** and other eligible persons are treated as non-concessional contributions until such time as the Trustee receives written notification, in the approved form, of the person's intention to claim the contributions as a tax deduction (at which time the relevant contribution will be treated as a concessional contribution). If the Trustee has not been notified of a TFN for these members, contributions cannot be accepted into the fund.
2. If you propose to **transfer or cash your benefits** in the Fund and the benefit (if any) which will remain in your account after such transfer or cashing is less than the tax liability payable because you have not provided your TFN, we will withhold an amount of the benefit being cashed or transferred which is sufficient to satisfy the tax liability.

What do you need to do?

To avoid paying more tax than you need to, and to ensure you are able to make personal contributions whenever you wish, you should consider providing Zurich with your TFN. You can provide Zurich with your TFN by:

- Phone: Call our Client Service Centre on 131 551
- Mail/Email: Complete a TFN Notification form (available online at www.zurich.com.au) and return it to Zurich at Locked Bag 994, North Sydney NSW 2059 or email it to client.service@zurich.com.au.

Expense recoveries by Zurich or the Trustee

The trust deed for the Zurich Master Superannuation Fund, allows the Trustee to be reimbursed for expenses it reasonably incurs in administering the Fund. In addition, the investment life insurance policy invested in by the Trustee allows Zurich to recover expenses it incurs in administering the Fund's assets.

There is no limit on expense recoveries by the Trustee. These expenses are incurred through activities such as audit, custody, reporting and systems and other changes needed to comply with laws and regulations. Currently Zurich and the Trustee do not make any additional expense recoveries other than those reflected in the management costs, and therefore they are not an additional cost to you.

This arrangement is in place until 30 June 2017 and its continuance will be reviewed in the lead up to that date. Until then, such expenses are borne by Zurich in consideration for a portion of a tax benefit arising from the amount by which the Fund's death and disablement insurance costs exceed assessable contributions received for members to whom those contributions relate. The Fund receives 10% of that tax benefit, plus any additional amounts needed to meet operational risk reserve requirements imposed by the regulator that are not provided by the Zurich Group. Such reserves are used to address operational risk events as determined by the Trustee in accordance with its established procedure. Zurich receives the remainder of the tax benefit which it uses to meet the expenses of the Fund and expenses it incurs in administering the Fund's assets under the Fund's investment life insurance policies, and retains the residue (if any) for its own purposes.

Operational Risk Reserve

The fund maintains a reserve for managing operational risk. The reserve is invested in a Capital Guaranteed portfolio under a Zurich life insurance policy. The approximate closing balances of the reserve at the end of the financial year ending 30 June 2014, 2013 and 2012 are set out below:

30 June 2014: \$1,218,055
30 June 2013: \$799,045
30 June 2012: \$393,985

Transfers to an Eligible Rollover Fund (ERF)

Where one of the following occurs, a Fund member's benefit may be transferred to an Eligible Rollover Fund ("ERF"):

- The benefit is immediately payable, and we have not been provided with instructions for payment within 90 days from the date the benefit became payable;
- We have lost track of the member (this is usually when we believe a member has not received at least two consecutive statements from Zurich) and does not meet the minimum account balance;
- The member is inactive and has a balance of under \$1,000; or
- The member has engaged in activity which could result in, or has resulted in, financial detriment to other Fund members or beneficiaries ("misconduct").

Superannuation law also allows the trustee to determine other transfer circumstances.

The Zurich Master Superannuation Fund's nominated ERF is AUSfund. Where we intend to transfer your benefits to AUSfund, we will provide you with prior notification. If your benefits are transferred:

- you will no longer be a member of the Zurich Master Superannuation Fund and all associated benefits such as insurance (if any) will cease;
- you will instead become a member of AUSfund;
- AUSfund will invest your benefit using a default investment strategy without knowing whether it is appropriate to your needs;
- AUSfund will have a different fee structure;
- AUSfund will not provide death or disablement insurance benefits.

If you are transferred to the AUSfund, you may request access to, or correction of, any personal information held by AUSfund by writing to AUSfund's Privacy Officer.

AUSfund can be contacted at:

AUSfund Administration
PO Box 2468,
Kent Town SA 5071

Phone: 1300 361 798 Fax: 1300 366 233

Email: admin@ausfund.net.au

Web: <http://unclaimedsuper.com.au//>

Unclaimed superannuation

Broadly speaking if we do not transfer your benefit to an ERF, your superannuation benefit may become unclaimed and paid to the Australian Taxation Office (ATO) if you are:

- over 65 years old, haven't made a contribution for the last two years and have been uncontactable by your fund for five years
- deceased, haven't made a contribution for the last two years and your fund has been unable to pay the benefit to the rightful owner because they are uncontactable
- a former temporary Australian resident and it has been six months since you left Australia or since your visa expired
- entitled to be paid your ex-spouse's super in a divorce and the fund is unable to contact you
- a lost member* whose account balance is less than \$2,000
- a lost member* whose account has been inactive for 12 months and your fund does not have the information needed to make a payment to you.

You may contact the ATO to claim your benefits should that occur.

For further information about unclaimed superannuation and how to claim, please contact your financial adviser or visit the ATO website, www.ato.gov.au.

* A person may be a lost member if they have not made a contribution in the last two years and the fund receives returned mail from their last known address.

Superannuation surcharge

The Trustee may deduct any surcharge payable for any superannuation contribution surcharge liabilities, for financial years 2005 and prior, from your account.

Trust Deed

Since the last Annual Fund Report, there have been no changes to the Trust Deed. A copy of the current Trust Deed can be obtained on the Zurich website, www.zurich.com.au, or by contacting the Zurich Client Service Centre on 131 551.

Policy committees

In certain circumstances a policy committee may have been formed in respect of an employer group in the Fund. The policy committee liaises between those members, the employer and the Trustee and is designed to provide the Trustee with feedback on any concerns members may have about the Fund. For further information about the role of a policy committee, including how to set one up, contact the Zurich Client Service Centre on 131 551.

The Fund accounts

The Fund accounts, auditor's report and certain investment information (a statement of net assets and information about single investments with a value of more than 5% of the portfolio's value) are not included in this annual report. If you would like a copy of the audit report or the audited accounts (available for 2013-14 after 31 October 2014), please contact us. Contact details are on the inside cover of this report.

Your privacy

Zurich and the Trustee are bound by the Privacy Act 1988 (Cth). Before providing us with any Personal or Sensitive Information ('Information'), you should know the following information.

We collect, use, process and store Personal Information and, in some cases, Sensitive Information about you in order to comply with our legal obligations, to assess your application, to administer the product provided, to enhance customer service or products and, where relevant, to manage claims ('purposes'). If you do not agree to provide us with the Information, we may not be able to process your application, administer your product or assess your claims.

By providing us or your intermediary with your Information, you consent to our use of this Information which includes us disclosing your Information where relevant for the purposes, to your intermediary, affiliates of the Zurich Insurance Group Ltd, our service providers, our business partners, government authorities or as required by law within Australia or overseas. These laws include the Australian Securities and Investment Commissions Act 2001, Corporations Act 2001, Insurance Contracts Act 1984, Life Insurance Act 1995, Superannuation Industry (Supervision) Act 1993, Anti Money Laundering and Counter Terrorism Financing Act 2006, Anti Money Laundering and Counter Terrorism Financing Rules Instrument 2007 (No. 1), Income Tax Assessment Act 1997, Taxation Administration Act 1953, Superannuation Guarantee (Administration) Act 1992, Small Superannuation Accounts Act 1995,

Superannuation (Unclaimed Money and Lost Members) Act 1999, Superannuation (Resolution of Complaints) Act 1993, Superannuation (Government Co-contribution for low income earners) Act 2003, Social Security (Administration) Act 1999 and Family Law Act 1975 (Part VIII B), as those acts are amended and any associated regulations. From time to time other acts may require, or authorise us to collect your personal information. Zurich may also obtain Information from government offices and third parties to assess an application or a claim. We may use Personal Information (but not Sensitive Information) collected about you to notify you of other products and services we offer. If you do not want your Personal Information to be used in this way, please contact us.

For further information about Zurich's Privacy Policy, a list of service providers and business partners that we may disclose your Information to, a list of countries in which recipients of your Information are likely to be located, details of how you can access or correct the Information we hold about you or make a complaint, please refer to the Privacy link on our homepage – www.zurich.com.au, contact us by telephone on 132 687 or email us at privacy.officer@zurich.com.au

Anti-Money Laundering and Counter-Terrorism Financing Requirements

Zurich is required to satisfy various regulatory and compliance obligations, including under the Anti-Money Laundering/Counter-Terrorism Financing Act 2006 (Cth). As an investor in the Funds, you must complete the Customer Identification forms (either included in the application form or available from us on request), and provide the required identity verification information.

Zurich may, from time to time, require additional information from you, which you must provide. In accordance with our obligation, Zurich will monitor your transactions; may also delay or refuse to process certain transactions. We may also be required to disclose information about you to a regulator or law enforcement body.

Complaints resolution

Zurich is committed to providing you with high levels of service and has established arrangements for any enquiries or complaints. If you have an enquiry, or if you require any further information about your investment or management of the Fund, please contact the Zurich Client Service Centre on 131 551.

The Fund has an established procedure for dealing with member enquiries and complaints. Should you have a complaint regarding your plan or the Trustee, you should contact Zurich's Client Service Manager on 131 551. The Client Service Manager has been authorised by the Trustee to receive all enquires and complaints.

If your complaint has been reviewed through Zurich's internal complaints procedures and the matter is not resolved to your satisfaction, you have access to:

The Superannuation Complaints Tribunal
Telephone: 1300 884 114
Locked Bag 3060,GPO
Melbourne Vic 3001 and/or

The Financial Ombudsman Service
Telephone: 1300 780 808
GPO Box 3
Melbourne Vic 3001.

The Superannuation Complaints Tribunal (SCT) is an independent body established by the Commonwealth Government to assist you if you are dissatisfied with a decision made by the Trustee. The objective of the SCT is to provide a fair, timely and economical means of resolution of complaints as an alternative to the court system. The SCT is able to substitute its own decision in place of that made by the Trustee. Such a substituted decision is binding on the Trustee. The SCT cannot consider complaints that have not been first referred to the Trustee's complaints resolution process.

The Financial Ombudsman Service (FOS) is able to deal with complaints about the administration and management of the Fund. A decision of FOS is binding on Zurich but not the Trustee.

Important: Although there is no time limit for some complaints to the Tribunal, others, such as a complaint about disability or death benefits, must be lodged within a particular time. For further information regarding the relevant time limits, you should refer to the SCT website, www.sct.gov.au.

Compliance with Australian and foreign law

The Zurich worldwide group of companies has obligations under various Australian and foreign laws. Despite anything to the contrary in any document related to the Fund, your plan terms will operate subject to all laws with which a Zurich worldwide company considers it must comply. This means that we may:

- refrain from taking any action which we consider could place you, us or another company within the worldwide Zurich group at risk of breaching any law in force in Australia or in any other country;
- take any action which we consider could be necessary to enable you, us or another company within the worldwide Zurich group to comply with any law in force in Australia or in any other country.

Planning to move overseas?

Zurich's superannuation plans are designed for Australian residents. Its operation and your rights may be restricted if you cease to be an Australian resident and/or if you become a resident or taxpayer of another country under their laws and regulations.

Please contact us before moving so that we can provide you with further information, and consider taking independent financial and/or tax advice on your circumstances. You may be asked to provide additional information and your details may be passed to relevant government authorities. We can also transfer your details to another Zurich worldwide company to check whether a more suitable product is available if you ask us to do so.

US residents for US Federal income tax purposes

US law treats products that contain certain cash-accumulation features, such as unit-linked superannuation products, as securities. Although US securities laws generally do not regulate products bought outside the US as securities, subsequent investment decisions made by US residents after arriving in the US can become subject to US securities regulation. For example, new money placed in a plan classified as a "cash-accumulation product" under US Securities and Exchange Commission (SEC) regulation is considered to be buying a new security.

As Zurich Australia is not licensed to offer securities in the US, and its products have not been registered for sale in the US, a range of transactions, including accepting new investments and investment switching, is not permitted in certain circumstances. Where the restrictions apply, processing the applicable transaction requests for customers who are US Resident for US Federal income tax purposes exposes Zurich Australia to the risk of penalties for the sale of an unregistered security.

In addition to being unable to accept further contributions to your plan, we will also be unable to accept any rollover or transfer payments into your plan from other superannuation products whilst you remain a US resident for US Federal income tax purposes.

The restrictions vary depending on the characteristics of the particular products and there are some exceptions which may apply. The exceptions currently include, but are not limited to:

- providing insurance protection with no accumulated cash value payable to the insured on policy maturity or upon surrender; or
- where implementing the restriction would cause the policyholder to suffer a "substantial penalty". One such circumstance is where the policy death benefit exceeds its cash surrender value by more than either 120% or US\$100,000.

Please note that under Australian superannuation law, you are only able to access your superannuation benefit if you satisfy a condition of release (such as retirement after attaining your preservation age). In view of this, where restrictions apply, your account will continue to be managed in the existing investment option(s) until such time as you are able to access your superannuation benefit, or you elect to rollover your benefits to another superannuation product before that time.

Further information: If you are currently living in, or intend to move to, the United States of America, we suggest that you contact the Zurich Client Service Centre on +61 2 9995 1111, or drop an email to client.service@zurich.com.au. If you need advice on retirement planning while in the US, we suggest you talk to a US financial adviser.

ASIC MoneySmart factsheet on Self Managed Superannuation Funds

ASIC MoneySmart has produced a short factsheet on issues consumers should consider before moving to a Self Managed Superannuation Fund (SMSF). The factsheet provides:

- basic information on the obligations of operating a SMSF;
- key issues for consumers to address when considering setting up a SMSF;
- brief details about the loss of protection moving funds out of a regulated superannuation fund.

For more information on this, and other information on superannuation in general, please refer to www.moneysmart.gov.au.

Information on investments

Investments and the use of derivatives

Derivatives are investments that derive their value from an underlying asset or asset class (for example, an option to purchase a share at a particular price some time in the future).

All of the relevant investment managers involved in the Zurich Master Superannuation Fund have provided the Trustee or its representative with a Derivative Risk Statement in relation to their management of derivatives.

Derivatives are generally used to manage the market value of assets or to otherwise protect the value of an investment and not for borrowing or leveraging purposes. The Trustee itself does not invest in derivatives on behalf of the Fund and has not given a charge over any assets of the Fund for derivatives transactions entered into.

The Fund investment objectives and strategy

Within the constraints of the Trust Deed of the Fund, the overarching investment objective of the Fund is to offer a range of investment options (which have different levels of risk and generate investment returns in different ways, over different time frames and from different asset classes) to build the retirement benefits of members of the Fund by enabling members to select the investment option/s that most closely meet their own particular needs and circumstances.

In accordance with the Trust Deed of the Fund, the overarching investment strategy is to invest the assets of the Fund in policies issued by Zurich Australia Limited to provide the range of investment options set out in the investment options summaries (pages 17 to 23). Those investment options have different levels of risk and expected return so that members can choose the option(s) that best suit their financial needs. The Trustee does not guarantee a return of invested capital, future investment performance or returns. However, under the Capital Guaranteed option, your investment (less any fees, withdrawals or tax) plus any interest that is credited to your account is guaranteed by Zurich.

Switching

You can move your money (called "switching") between investment options at any time. There is no minimum amount that must be switched. If we accept a switch request before 3pm in Sydney on a business day, the exit and entry unit prices determined for the relevant options for that business day will generally apply.

Net earnings of the Fund

Net earnings of the Fund are allotted to members via changes in unit prices (except under the Capital Guaranteed option*).

When you contribute to the Fund (or someone else such as your employer, contributes on your behalf), a contribution fee (if any) is deducted from the contribution. The amount remaining is then used to purchase units in your chosen option(s) (or the default option if no choice has been made).

The number of units allocated is determined by the 'entry price' for the option, which is the unit price for the date when we process your contribution. For example: assume a net contribution of \$2,000 after deduction of the contribution fee, and that the entry price for the relevant investment option at the time we processed the transaction was 1.2112. The number of units issued would have been $2000/1.2112 = 1651.254$. Further units will be added with additional contributions and units will be deducted when management costs, tax, premiums (if any) and benefits are paid.

The unit price will increase or decrease depending on:

- the investment performance of the underlying assets;
- the taxation liabilities of the Fund; and
- management costs deducted directly from the underlying assets.

Your latest superannuation statement shows the exit unit price at the end of the reporting period. It also shows the number of units and the total value of the balance held in each investment option at the end of the reporting period. Note that the exit unit price differs from the entry unit price by the amount of the buy/sell spread applicable to the investment option, if any.

The buy/sell spread is an allowance to cover the cost of buying and selling the underlying assets. It is intended to:

- reflect an estimate of the transaction costs (for example brokerage) payable for buying and selling the underlying assets; and
- ensure that members of the Fund who rarely transact do not disproportionately bear the transaction costs associated with those members that transact more regularly.

The buy/sell spread is not a fee paid to the Fund, the Trustee, or Zurich.

* Under the Capital Guaranteed option, net earnings are allotted to members via an annual declared interest rate.

Reserving policy – investments

The Fund does not maintain any reserves for the purposes of smoothing fluctuations in investment performance. Zurich may use reserves in managing the Capital Guaranteed investments or in other exceptional circumstances.

Tax on earnings and the effect of tax on unit pricing

Zurich superannuation plans: Investment earnings of the investment options are taxed at a maximum rate of 15%. Imputation credits from share dividends can reduce the tax payable and result in a tax refund for the Fund if there are any excess credits. The calculation of unit prices takes into account the tax on earnings and any imputation credits available.

There may be circumstances where the tax in unit pricing for an investment option is affected by the tax experience of other investment options (for example where the Fund as a whole has significant realised or unrealised capital losses). Where this occurs, the allocation of tax between investment options will be managed in the best interests of the overall fund membership.

Zurich retirement income plans: No income tax is paid by the Fund on its investment earnings relating to our retirement income plans.

The Fund will generally benefit from any imputation credits (from share dividends) earned on the options' investment earnings. The calculation of unit prices takes into account a credit given to the account-based pension options equivalent to the imputation credits earned by those options.

Asset allocations

Asset allocations as at 30 June 2014 are included on pages 17 to 23 of this report. Asset allocations for investment options prior to this reporting period are not included in this annual report. If you would like details of the asset allocation for the investment options as at 30 June 2013 or earlier, copies of previous Annual Fund Reports are available by contacting us or by visiting www.zurich.com.au/annualreports.

Asset allocations in this report are shown on a pre-tax basis and do not include tax provisions that may be held in relation to an investment option. In practice an investment option may also include a tax provision. The tax provision will reflect that investment options own tax experience, but may also be affected by the experience of other investment options. For example, an investment option may exchange investment assets (such as shares or bonds) with another for tax losses.

The maximum amount of exchanged tax losses an investment option can acquire is limited, currently to 5% of its total assets. Tax assets are not income producing, and exchanging them between investment options may have a slight effect on the investment returns of the relevant investment options.

Where exchanges take place, this activity will be managed in the best interests of the overall fund membership.

Investment option summaries

As at 30 June 2014

Please note, objectives shown in this section are goals only and may not be met. Objectives, strategies, asset allocation and other aspects of the investment options are subject to change. Unless otherwise specified there is no guarantee as to the performance of any of the investment options or the repayment of capital.

Option	Objectives	Strategies	Standard Risk Measure	Asset Allocations (as at 30 June 2014)
Capital Guaranteed	To provide security of capital and long-term capital appreciation.	This option invests in income producing asset classes, such as fixed interest and cash, to protect capital value. The option holds a relatively small portion in growth assets for diversification benefits.	Very low	<ul style="list-style-type: none"> Diversified fixed interest 84.57% Australian shares 1.06% Cash 14.36%
Cash	To provide investors with security of capital, along with a competitive cash rate over the short term. The option aims to outperform the UBS Australian Bank Bill Index over a one year period before fees and taxes.	This option invests in Australian wholesale money markets including bank guaranteed, government guaranteed and corporate securities.	Very low	<ul style="list-style-type: none"> Cash 100.00%
Australian Fixed Interest	To provide investors with security, and some capital growth over the short to medium term. The option aims to outperform the UBS Australian Composite Bond (All Maturities) Index over rolling three year periods before fees and taxes.	This option invests in a range of fixed interest securities including Australian government, state government and semi-government securities and corporate bonds. Australian fixed interest assets include securities issued by international bodies which are traded on the domestic Australian fixed interest market, and which may be backed by investments in overseas investments and assets.	Low to medium	<ul style="list-style-type: none"> Australian fixed interest 98.82% Cash 1.18%

<p>Global Equity Income</p>	<p>To provide investors with higher than market income distributed quarterly and derived from three sources;</p> <ol style="list-style-type: none"> 1. Capital growth from stock selection; 2. Dividends and franking credits from share ownership; and 3. Income from selling option premium. <p>The Option aims to provide 8% running yield per annum over rolling five year periods before fees and taxes.</p>	<p>The stock selection process is built around the simple principle that the best way to preserve and enhance your wealth over the medium term is to 'buy a good business at a good price'.</p> <p>All portfolio positions are subject to intensive research and peer group review. The analytical expertise of the investment team is utilised to pick around 40 stocks to gain equity exposure.</p> <p>At regular intervals, the investment team will sell equity options against a basket of stocks. The preference is to write out of the money options within a three month time horizon. Subject to price and market views longer dated protection will be sought to protect the portfolio from major market falls.</p>	<p>High</p>	 <table border="1"> <tr> <td>● Australian shares</td> <td>4.37%</td> </tr> <tr> <td>● International shares</td> <td>32.16%</td> </tr> <tr> <td>● Cash</td> <td>63.47%</td> </tr> </table>	● Australian shares	4.37%	● International shares	32.16%	● Cash	63.47%
